

Technical Writer – Aerospace Experience

Company Information:

For 70 years, O'Neil & Associates has specialized in the preparation of technical publications for widely diverse customers. We continue to expand and develop our technical writing, technical illustrating, provisioning, and information engineering staff and processes. In addition, we have embraced and refined rapidly evolving publishing technologies to manage and distribute information.

Today, ONEIL is in a position of leadership as a developer of product support information. O'Neil serves customers worldwide and is headquartered in Miamisburg, Ohio. We offer a fun, flexible work environment for all of our employees with advancement opportunities.

Position Summary:

The Technical Writer will work closely with experienced writers and other internal and external staff, taking complex technical information and restating the information into an easily understandable format, based upon customer guidelines.

Position Requirements:

This role is responsible for taking complex, technical information and converting the documentation into an easily understandable format, per our customer's specifications. Individual should possess a military or civilian aviation background and have a strong background with experience in avionics, electronics, flight controls, sensors, or systems integration. A strong familiarity with commercial and/or military standards is a plus

- 85% - Technical Writing – Take technical information received from our customer and translate it into written format, per our customers guidelines
- 10% - Training – May assist other staff members with training
- 5% - Travel to customer locations or to ONEIL headquarters
